

Embedded Wireless Charging Module

Compact 5 W / 10 W / 15 W wireless power module for furniture and integrated equipment

Wireless power with minimal visual footprint

A round embedded charging module designed for clean integration into desks, conference tables, counters and other furniture surfaces. Available in white and black, with multiple power configurations.

Specification extracted only from the supplied product material. No unsupported electrical values have been added.

1. Functional Description

The Embedded Wireless Charging Module provides contactless charging for compatible mobile devices when integrated into a furniture or equipment surface. Its circular, low-profile housing is intended for recessed installation, leaving a clean charging target visible on the finished surface. The supplied material shows white and black versions and identifies 5 W, 10 W and 15 W configurations.

2. Key Features

Wireless charging	Contactless power transfer through an integrated circular charging surface.
Embedded installation	Recessed design for desks, conference tables, counters and furniture.
Power options	5 W, 10 W and 15 W configurations are listed in the source.
Compact form factor	75 mm outside diameter with two low-profile thickness variants shown.
Housing	ABS; source material describes flame-retardant and corrosion-resistant construction.
Color options	White and Black.
USB-powered interface	Attached USB cable provides the module input connection.
Application environment	Product imagery specifically presents furniture-integrated charging.

3. Electrical Characteristics

5 W version input	5 V DC, 2.0 A
10 W version input	5 V DC, 2.0 A or 9 V DC, 2.0 A
15 W version input	5 V DC, 2.0 A or 9 V DC, 2.0 A
USB output / auxiliary output	5 V DC, 1.5-2.0 A - as stated in the supplied parameter sheet.
Wireless rated power	5 W / 10 W / 15 W, depending on selected configuration.
Power connector	USB cable shown in the supplied product imagery.
Wireless charging standard	TBD - exact Qi generation/protocol is not stated in the supplied material.

4. Mechanical Specifications

Variant A product size	Ø75 mm x 13 mm
Variant A cutout size	Ø60 mm x 12 mm
Variant B product size	Ø75 mm x 18 mm
Variant B cutout size	Ø60 mm x 15 mm
Material	ABS
Colors	White / Black
Installation	Embedded / recessed surface mounting
Model shown in parameter sheet	247#
Source brand	TIMOR BAY

5. Input / Output Summary

Input	USB-powered DC input; 5 V / 2.0 A for 5 W, and 5 V / 2.0 A or 9 V / 2.0 A for 10 W and 15 W versions.
Primary output	Wireless charging field at the top circular charging surface.
Rated wireless power	Selectable product configurations: 5 W, 10 W or 15 W.
Listed USB output	5 V / 1.5-2.0 A; exact functional role should be confirmed before production release.

6. Typical Applications

Conference tables, office desks, executive furniture, hotel furniture, bedside tables, reception counters, kitchen/work surfaces and other equipment or furniture requiring a discreet integrated wireless charging point.

COMPACT EMBEDDED DESIGN

Small footprint for furniture integration
Precision-built ABS flame-retardant housing

Product size: Ø75 mm x 13 mm
Cutout size: Ø60 mm x 12 mm

COMPACT EMBEDDED DESIGN

Small footprint for furniture integration
Precision-built ABS flame-retardant housing

Product size: Ø75 mm x 18 mm
Cutout size: Ø60 mm x 15 mm

7. Installation Considerations

Machine the furniture opening to the cutout dimensions corresponding to the selected mechanical version. Confirm adequate clearance below the mounting surface for the module body and USB cable bend radius. Keep metallic obstructions away from the active charging area unless the final wireless-power design explicitly permits them. Final installation thickness and retention method should be verified against the production mechanical drawing.

8. Production-Release Items

Before release as a controlled SiCore product specification, confirm the exact wireless charging protocol/standard, coil operating frequency, charging efficiency, foreign-object detection, over-temperature and over-current protection, cable length, connector specification, operating/storage temperature, environmental rating, mounting/retention method, regulatory certifications and whether the listed 5 V / 1.5-2.0 A USB output is an auxiliary output or a source-sheet labeling convention.

PRODUCT PARAMETERS

Brand:

TIMOR BAY

Product:

Wireless Charger

Model:

247#

5 W Input:

5 V / 2.0 A

10 W Input:

5 V / 2.0 A or 9 V / 2.0 A

15 W Input:

5 V / 2.0 A or 9 V / 2.0 A

USB Output:

5 V / 1.5-2.0 A

Material:

ABS

Colors:

White / Black

Embedded design | ABS flame-retardant, corrosion-resistant material

ABS阻燃耐腐蚀材料
